

Biography - Guillaume Kerlero de Rosbo

Guillaume Kerlero de Rosbo is a freelance consultant and speaker, bringing over 15 years of strategic consulting expertise in energy and ecological transition.

At the Institut Rousseau, he spearheads ecological studies and led influential initiatives such as "2% for 2 degrees" and "Road to Net Zero".

Guillaume also co-founded « éclaircies », a collective of energy and climate experts that launched the carbonbombs.org platform, putting carbon bombs in the spotlight on the international stage a few months ago.

Passionate about the nexus of social justice and ecology, Guillaume is dedicated to driving transformative change.

He is a qualified engineer from Agro Paris and Mines de Paris.
